

APPLICATION FOR RODENT TREATMENT CERTIFICATE (DEMOLITION)

Please note:

- It is a requirement that the premises is treated to kill any rodents which may be on the property prior to issue of a demolition permit. A rodent bait shall be placed in each room, the roof space and sub floor (if applicable) and left for a minimum of 4 days. If the bait is taken, then it should be replaced until the rodents cease taking the baits.
- Upon receipt of this application, the City's Health Services will contact you to arrange for an inspection and a rodent treatment certificate to be issued. Alternatively, you may submit a certificate from a licensed pest control operator with the demolition permit application form certifying that the premises has been satisfactorily treated to ensure that it is not infested by rodents at the time of demolition.
- A rodent treatment certificate or a certificate from a licensed pest control operator must be submitted with the application for a demolition permit. A demolition permit will **not** be issued without a valid certificate.
- Please contact the City on 9792 7000 for any further queries.
