

## Candidate Details

Ballot paper name	<b>KOZISEK, Cheryl</b>
Candidate name	<b>Cheryl Anne KOZISEK</b>
District	<b>City of Bunbury</b>
Nominating for	<b>Councillor for City of Bunbury</b>
Election type	<b>Ordinary</b>
Enrolment status	<b>KOZISEK, Cheryl is eligible to stand for election as a resident of the City of Bunbury.</b>

It has been an honour and a pleasure to serve this community as a Councillor for the past four years.

I am passionate about reviving Bunbury's reputation as the premier City in the South West.

Lets build the Ocean Pool and put Bunbury on the Map, a must visit tourist destination and a place we are proud to call home.

Investing in infrastructure such as a new Art Gallery, restoring the Old Train station and lobbying for more affordable housing, all bringing economic benefits to our City. I am approachable, accessible and a visible presence both within Council and the larger community, confident that Bunbury can thrive and become the liveable City we all deserve.

My background is in Interior Design, retail and hospitality, this gives me an understanding of the difficulties facing small business.

As the founder and President of The Retail Co, I have successfully advocated for free 2 hour parking in the CDB and have created the 3rd Walking Map of the City.

With four years, as an Elected Councillor, I have had the pleasure of advocating for our city as a place to live, and invest. I currently sit on four council committees: the Heritage Advisory Committee, the Policy Review Committee (as chair), the Audit Committee and the CEO Performance Review Committee. My vision of Bunbury is fiercely optimistic. It is focused on Bunbury's strengths and natural assets. It is informed by a practical understanding of how our city works and how it can improve for the benefit of all residents.

I have pushed hard for Boulter's Heights to be revitalised, and for the Restoration of the Old train Station, and I am very excited about the Back Beach Ocean pool concept, this Iconic development will put Bunbury on the map.

I would like to see Bunbury grow into the best Regional City in WA, a manufacturing hub, a place for innovation, a centre for excellence in education and a Health hub. With that come more employment opportunities, and of course we must lobby for more affordable housing, working with our surrounding Shires to improve the overall liveability of the region.

Choosing to live in Bunbury, over 23 years ago, is a privilege that I am reminded of every day. Throughout my time here, I have studied and achieved an Advanced Diploma in Interior Design, enabling me to establish my own business, Red Phoenix Designs and also lectured at South West Tafe for 6 years.

My support for small business, both in hospitality and retail, has allowed me to advocate successfully for our unique CBD.

I founded "The Retail Co" to unite and support locally owned retailers. As president of "The Retail Co", I was instrumental in tackling paid parking that was decimating the city, convincing the council to introduce two hour free parking to entice people back into the CBD, I also created and implemented the Bunbury Walking Map, the third edition, out now.

I would be honoured to serve another four years on Council.
