

**APPLICATION FOR BUILDING PERMIT UNCERTIFIED**

-

**FORM BA2 TO BE COMPLETED**

**APPLICATION FOR BUILDING PERMIT CERTIFIED**

-

**FORM BA1 TO BE COMPLETED**

The City processes applications electronically so it is preferred that original PDF copies of plans (not scanned versions) are provided with application submissions. Currently hardcopy plans can still be lodged where PDF documentation is unable to be provided.

DESCRIPTON	<input checked="" type="checkbox"/>	ADMINISTRATION REQUIREMENTS
Building Permit Application Forms		<b>APPLICATION FORMS AND INFORMATION GUIDES AVAILABLE from Customer Service and <a href="#">Building &amp; Energy (DMIRS) Website</a>.</b> All relevant fees are to be paid at lodgement.
BA2 Form		<b>Complete Application Form BA2 – Uncertified</b> – means you require the City of Bunbury’s registered Building Surveyor to assess the plans and issue the Building Permit. Turnaround timeframe of 25 business working days.
Uncertified Fees		Refer to Building Schedule of Fees and Charges.
BA1 Form		<b>Complete Application Form BA1 – Certified</b> – means you have previously obtained your certification from a registered Building Surveyor and require a Building Permit to be issued. Turnaround timeframe of 10 business working days.
Building Permit Certified Fees (Permit fees Only)		Refer to Building Schedule of Fees and Charges.
Building Services Levy (BSL)		Refer to Building Schedule of Fees and Charges.
CTF Levy		Refer to Building Schedule of Fees and Charges.
Builder’s Registration Number/Owner Builder Number		Where value >\$20,000: Registered Builder details for project <b>or</b> copy of Owner Builder Certificate issued by the Building Commission Owner Builder info from: <a href="#">Building &amp; Energy (DMIRS) Website</a> .
HII		Home Indemnity Insurance Certificate where Registered Builder’s contract value is >\$40,000.
Planning Approval		An assessment will be made on whether the proposed project will comply with the requirements of the “Residential Design Codes of WA”. If the project requires planning approval or a “Codes Variation” to be issued separate fees and approval timeframes apply. The applicant will be contacted if applicable.
Water Corporation Approval		It is the owner’s responsibility to obtain separate approval prior to starting works. Contact for details <a href="http://www.watercorporation.com.au">www.watercorporation.com.au</a> Where structures are known to be adjacent to infrastructure (sewer) submit Water Corporation approval with your Building Permit application.
BA20 Form Work Affecting Other Land		If the proposed works <b>show encroachment on adjoining land</b> or works that will adversely affect an adjoining property then neighbours consent is required prior to issue of the Building Permit. Further info and form available: <a href="#">Building &amp; Energy (DMIRS) Website</a> .
BA20A FORM Work Affecting Other Land – Access Only		If the proposed works <b>involve removing a fence/working on boundary requiring access to neighbours land etc</b> the Builder/Owner is to obtain

	neighbours consent prior to works commencing – Note – Statutory penalties apply for non-compliance. Further Information: <a href="#">Building &amp; Energy (DMIRS) Website.</a>
<b>City Engineers Approval</b>	Please contact the City’s Development Engineer on (08) 9792 7000 for details of required approvals minimum AHD levels, stormwater requirements, Crossover Permits, Verge Treatment Permit etc.
<b>Health Approval</b>	If the proposed works include a new septic application Health Dept will require a separate application for proposed works. General Health approval will be included with the building permit application. Available from <a href="http://www.bunbury.wa.gov.au">www.bunbury.wa.gov.au</a>

Excludes: bathroom, laundry, toilet, pantry, WIR, corridor, hallway, lobby, dark room, clothes-drying room.

DESCRIPTON	<input checked="" type="checkbox"/>	CONSTRUCTION DETAILS
<b>SITE PLAN</b>		Contours or spot levels across site and boundary, FGLs, FFLs (AHD where required). Show level differences for adjacent sites and existing retained levels.
		Show measurements to all boundaries and between buildings for new works.
		Overall dimensions of the proposed structures.
		Proposed and existing structures to be clearly marked.
<b>SPECIFICATIONS / ADDENDA</b>		Required for applications involving multiple trades / standards.
<b>REPORTS</b>		Proposed termite barrier or treatment for project.
		Compliance with Energy Efficiency Part 3.12 (Climate Zone 5).
<b>STRUCTURAL ENGINEERS DETAILS</b>		Site Classification: Site specific information establishing design criteria. Engineer certified details footings, slab, structural components, suspended floor etc. Two storey plus constructions to be engineer certified.
<b>FOOTING &amp; SLAB DETAILS</b>		Footings, slab detail to DTS AS2870. Requirements.
<b>DESIGN DETAILS</b>		Proposed and existing construction to be clearly marked.
		Dimensioned plan, specific room use, required facilities.
		External elevations showing materials proposed, overall building height, roof material and pitch, ground level, existing and proposed retaining.
		Cross sections through building showing all structural elements, wall / ceiling heights and showing construction details.
		Wall framing structural elements: spans spacing etc / columns and piers / tie down connection details / bracing – for timber / steel / masonry.
		Roof framing structural elements: spans, spacing etc / trusses / tie down connection details / bracing – for timber / steel.
		Timber grade / exposed timber durability (e.g. H5 or method of treatment) / steel corrosion protection to external structural members / roof sheeting etc.
		Wet area details (internal elevations).
		Roof material, flashing, downpipe location, guttering (box gutters): sizing.
<b>FIRE SEPARATION</b>		Provide specific fire separation detail if applicable.
<b>SMOKE ALARMS</b>		Location marked on plan in accordance with AS3786.

**RETAINING WALLS / POOLS AND SPAS**

<b>RETAINING WALLS</b>		Retaining walls >500mm require details of construction and site specific engineer certified detail.
		Retaining walls: Contours or spot levels and levels at 'top' and 'bottom' for the entire length of wall.
<b>POOLS / SPAS</b>		Engineers' / manufacture details for pool (check limitations / setback conditions).
		Pool fencing diagram showing compliance with AS1926.
		Pool blanket.
